It was on the recommendation of Secretary Schurz that the St. Louis fand swindlers were arrested. The Secretary obtained the information on which he acted from a friend. It is believed at the Land Office that the ring have fraudulently obtained titles to more than a million acres of public lands, most of which they have sold to Mining, and Education and Labor. innocent settlers, who therefore have no valid title to the land they occupy.

The Republicans will have no difficulty in organizing the House and electing their Speaker and other officers. They have a majority of their own number, and they will probably have the assistance of the Virginia Readjustors, who will not go into the Democratic caucus, and of the Missouri Greenbackers, who are Republicans. It is also said that Spear, (Independent, of Georgia) will not go into the Democratic cancus.

A Natural Bridge.

The Downieville Messenger describes an interesting spectacle to be seen on the East Fork of the Yuba river, about five miles above Downieville. It is an immense snow-slide which completely covers the river for a distance of several hundred feet. This slide formed a year ago this winter, and was then perhaps 75 feet deep. The summer it is now, with some of this winter's snow, at least forty feet in depth, the old snow being as hard as ice almost The river has worn its way through and the arch is as regular as though formed by human hands. There will doubtless be plenty of snow there all the coming summer, as it lies in a gorge hours in the day.

It is a noticeable circumstance that nearly every effort to procure water by artesian wells on this side of the Continent is successful. These wells cost but little, yet they are of very great advantage on most farms in California, Nevada and Arizona. In San Francisco, so many wells are sunk that the public have ceased to watch their progress. Probably if all of the ardesian wells in San Francisco at this time were fully utilized, they would furnish water aufficient for the entire city.

The Cheyenne Leader shows that Wyoming is being rapidly developed and that immigration is pouring in and silver and gold mines being discovered in all her mountains. Two big petroleum belts have been tapped, and immense soda lakes, sufficient to supply glass-makers, who will erect works. Farms in Northern Wyoming are being rapidly taken up and new counties being organized. Three new railroads will be built in the Territory this year, are building and other improvements are going on all hands. The Territory, which more than doubled its population in the last decade, will undoubtedly quadruple it in the present decade.

JASPER BARCOCK. Secretary of State. GENERAL ITEMS.

A private letter received in San Francisco from London, states that John W. Mackay has bought the interests of two Scotchmen and secured the control of the Sutro tunnel.

The first overland train by the Southern route left San Francisco Friday morning under the charge of Conductor Massie and Engineer Littlejohn. The cars composing the train were all new and of the finest construction.

Returns from the Winter wheat crop in the Western States show that in Ohio the outlook is promising. In Indiana Seven. No person shall be disqualified the promise of a large crop is good, and as a witness in any action or proceeding there is an increased acreage. Similar there is an increased acreage. Similar reports come from Missouri and Kansas. In Michigan, Wisconsin and Iowa there is some uncertainty.

Speaking of our great wheat crops the American Miller remarks that few people in our own country realize how inexhaustible our resources are for wheat-growing. The total area of lands available for wheat culture in the United States is not less than 470,000,000 acres. Our entire wheat crop of the past year would not supply seed enough to sow so vast an area of wheat laud.

Gen. Benjamin Lincoln was the first Secretary of War. He was appointed in 1781. The last Secretary of War is Robert Lincoln, appointed in 1881; just one hundred years difference between the dates of appointment. A picture of the first Secretary hangs upon the walls of the Department, and a picture of the present one will be placed along receiving just impressions of the facts side of it. So far as is known, there is respecting which they are examined, or no bond of relationship between the two Secretaries.

The Revised Committee List, prepared by the Reupblican caucus, assigns Gen. Miller to positions on the Foreign Relations, Naval Affairs and Mining Committees. He was at first assigned to the Committee on Commerce, in place of Senator Jones, of Nevada, who was transferred to the Foreign Relations Committee, but it was discovered that the arrangement would interfere with Senator Farley's retention on the Committee on Commerce. Jones returns to the Committee on Commerce, holding also his former position on the Finance Committee and becoming Chairman of the Committee on Contingent Expenses, which gives him an annual clerk and a Committee room.

"DISCIPLES OF CHRIST." An Appeal to the Members for Aid to Build a Church.

[Corr. Eureka Sentinel.] WINNEMUCCA (Nev.), March 7, 1691.

The denomination known as the 'Disciples of Christ' have concluded that the auspicious time has come that they should have a large and commodious church built at the City of Washington. In the light of that consideration, their General Christian Missionary Board has set about the work in right earnest. As a rule each neighborhood should build its own house of worship, but those who share in the faith of the Disciple's Church believe that Washington City, being the capital of the nation, forms at exception. They regard it as a matter of national interest and importance to build a house of worship in that city, so that proper facilities may be furnished for the proclamation of the Ancient Gospel to all who will hear. Thomas W. the proclamation of the Ancient Cospet to all who will hear. Thomas W. Philips of New Castle, Pennsylvania, has been uppointed general agent, and Joseph Smith, Jr., of Cincinnati, Ohio, Treasurer, to raise the money needed for this purpose. These men are well known among the brotherhood to be thoroughly trustworthy—men who have given liberally of their own means for this important enterprise. It is desirable that every disciple and friend of the church have an opportunity to con-tribute somthing toward this work. To this end State agents are being appointed in all the States and Territories to re-

ceive donations.

The writer of this has recently been commissioned to act as agent for the State of Nevada, and would be glad to confer with any and all brothers and sisters in the State. Circulars and blank subscriptions will be furnished, as well as any additional information desired, to any who may be willing to act as local agents in their community. Though few in number, and isolated from the church of our choice, let us see if there are not scattered over the desert wastes and in the mountain fastness of Nevada those of us who would deem it a privilege and a matter of heartfelt satisfaction to be co-workers

in this landable undertaking.

Let us see to it that the Silver State of this great republic shall have a niche in the memory of that Christian Temple within whose walls it is proposed that the wise and great of the nations of the earth, when visiting our national capital, shall have an opportunity to hear the gospel proclaimed in its ancient purity and simplicity, unmixed with human traditious and untrammeled by the dogmas of the socalled orthodox C. CHENOWETH, State Agent.
